Final Presentation, Goal: Prepare to present a demo reel to a future employer.

All Semester:

Make a polished project with main elements from class

Week before final:

- ✓ Collect footage of your projects(s)
- ✓ Combine into one video (<= 2 Minutes) w/o audio
- ✓ Upload to Canvas, "UNO Academic Video" (VidGrid)
- ✓ Copy + minify public link (bit.ly or tinyurl.com)
- ✓ Practice your presentation

During Final:

- ✓ Bring up your video quickly with memorable link
- ✓ Discuss main points and anything else cool
- ✓ Be positive: talk to future employer

What not to do

- x Don't show up
- x Make video during the final time
- x Show any code during your video
- x Video > 2 Minutes
- x Have audio on video
- x Use video website with sketchy suggested videos
- x Don't practice
- x Bring up video with lengthy login, download, laptop, connection, USB connection, etc.
- x Present a live demo instead of a demo reel
- x Make a video without main course topics
- x Don't talk about main topics
- x Complain about how bad your project is
